Developing Innovation Culture and Entrepreneurship (DICE) held on 22-09-2026

The Department of Electronics and Communication Engineering (ECE) organized a three-day programme on **"Developing Innovation Culture and Entrepreneurship (DICE)"** at the AICTE IDEA Lab, commencing on 22 September 2026. The programme aimed to foster innovation, creativity, problem-solving abilities, and entrepreneurial skills among school students. Dr. D. Vijay Saradhi and Dr. Ch. Ramesh served as resource persons and provided valuable guidance and practical insights. A total of **150 students** from three schools participated in the programme. On Day 1, 50 students from ZP High School, Mutluru, attended the sessions. On Day 2, 50 students from PM SHRI Kendriya Vidyalaya, Vijayawada, participated, followed by 50 students from ZP High School, Prathipadu, on Day 3. The programme featured expert sessions, hands-on practical activities, prototype development, demonstrations of innovative ideas, and awareness sessions on start-ups, Intellectual Property (IP) rights, and business models. These activities encouraged students to identify real-world challenges and explore creative, technology-driven solutions. Through active participation, students gained practical exposure to the innovation process and learned how to transform their ideas into feasible solutions. The programme also helped enhance their critical thinking, teamwork, communication, and presentation skills. The three-day initiative successfully promoted an innovation-oriented mindset and entrepreneurial awareness among school students. It inspired them to explore new ideas, develop prototypes, and pursue future opportunities in innovation and entrepreneurship.
