About College

Malineni Lakshmaiah Women's Engineering College is established in the year 2008. It is a self-financing institution which owes its foundation to the bold and inspired vision of Malineni Perumallu Educational Society, Singarayakonda. The institution is ideally located in a vast expanse of 5.08 acres of land on the outskirts of GUNTUR city at a distance of about 6 Kms from the city center.

The departmental buildings are located in close proximity each other with wide open spaces all around. The playfields and other student and staff amenities are within working distances. College is offering U.G and P.G Programs in different specializations. Three U.G programs are B.Tech (CSE) with intake of 120, B.Tech (IT) with intake of 60 and B.Tech (ECE) with intake of 120. Two P.G programs are M.Tech (CSE) with intake of 20 and M.Tech(VLSI) with intake of 20.

About Department

The Department of Information Technology at the "Malineni Lakshmaiah Women's Engineering College" was formed in the year 2008 and provides an

outstanding research environment complemented by excellence in teaching. The Department offers B.Tech degree. The Department has a comprehensive curriculum on topics related to all aspects of Computer Hardware and Software with an emphasis on practical learning. The course structure is up-to-date and includes courses on nascent topics to equip our students with the latest developments in Information Technology. The Department has state-of-the-art infrastructure and computing equipment supported by high speed Ethernet and wireless networks. Our faculty members aim at delivering top class education blending their rich research experience with classroom teaching.

Objective of the Programme

The proposed FDP introduces fundamental concepts of The Internet of Things (IoT) describes the network of physical objects—"things"—that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the internet. The Internet of Things (IoT) is aimed at enabling the

interconnection and integration of the physical world and the cyber space. It represents the trend of future networking, and leads the third wave of the IT industry revolution.

Vision

To emerge as center of excellence in IT education, research and innovation by promoting competent and woman engineers with ethical values for development of the society.

Mission

IM1: Bringing innovative approach in teaching-learning process competent Information Technology engineers.

IM2 To inculcate ethical and social values among the students for improving their life skills.

IM3: To promote research and development in the domain of Information Technology to meet the emerging needs of the Society.

IM4: To promote higher education, technological innovation and entrepreneurship in the areas of IT with interdisciplinary connection.
